

OUR EQUESTRIAN PROGRAM

Eagle Mount Great Falls equestrian program was established in 1992. The program serves individuals of all ages with disabilities through Animal Assisted Activities.

Spending just 10 minutes with animals has proven to significantly reduce stress levels. Animals aid in emotional, cognitive and social development.

Through the movement of a horse, riders build strength, balance, and coordination.

Through trust, they find confidence.

Through friendship, they find belonging.

Through this incredible bond between human and horse, something deeper happens - something that changes lives.

ABOUT US

Eagle Mount Great Falls is non-profit organization founded in Great Falls, MT in 1990. We provide therapeutic and recreational activities for children and adults with physical, developmental, behavioral and/or mental challenges, striving to improve the quality of life for them and their families.

OUR EQUESTRIAN CENTER

There is something truly special that happens the moment you walk into the Eagle Mount Great Falls Equestrian Center. It's a place where smiles come easily, where laughter echoes through the arena, and where hope grows with every stride. It's a place built on connection - between people, animals, and the hearts that guide them.

It is far more than a riding center. It is a calm, supportive place where individuals with disabilities are met with understanding and steady encouragement.

This Equestrian Center has been changing lives for 24 years, making our community a better and more inclusive place.

RENOVATION PROJECT

Our equestrian center is in need of our community's support.

Built in 1964, Eagle Mount purchased it in 2001 securing a permanent location for our adaptive equestrian program.

2001 and several years after, we gathered donations and volunteers to make it a safe place for our participants.

After 24 years, we are once again seeking support for vital renovations to our facility, shelters, and property.

These updates are essential for ensuring the safety of our families, animals and staff. Additionally, these improvements will strengthen the services we offer to our participants and the Great Falls community.

WHAT WE NEED

- Replace the main roof, reinforce and replace the indoor stalls roof, and replace all siding.
- Install three roll-up doors-one at the front and two at back of arena.
- Add gutters and downspouts.
- Remodel face of entrance with awning for better accessibility.
- Structural updates and insulation.

- Replace all horse shelters.
- Tear down the old, debilitated wood shelters and add fencing.
- Building for hay storage with a garage door. This building would serve as a central feed station and storage.
- Create a designated and covered space for vehicles, trailers and other equipment.
- Complete pipe fencing all around property.
